Dairy calcium intake, serum vitamin D, and successful weight loss. Prospective follow-up study initiated in early pregnancy. MC Collado et al.

Emotional eating and physical activity self-efficacy pathways in the association between symptoms and adiposity indicators. E Maslova et al.

Dietary intake and status of n-3 polyunsaturated fatty acids: The EPIC-Norfolk cohort. LM Fischer et al.

Total antioxidant capacity of diet in relation to cognitive function and decline. EE Devore et al.

Whole- and refined-grain intakes are differentially associated with abdominal adiposity in healthy adults: The Framingham Heart Study. NM McKeown et al.

Survival predictability of lean and fat mass in men and women. S Li et al.

Expression of the FGF21 gene and diet composition in humans. M Andersson et al.

From prehypertension to stage 1 hypertension: The role of systolic pressure in prehypertension and stage 1 hypertension. MM Dohadwala et al.

Total antioxidant capacity of diet in relation to cognitive function and decline. EE Devore et al.

Effect of dihydrocapsiate on resting metabolic rate in men. N Buijs et al.

Cardiometabolic syndrome – Impact of dairy components. PJ Atherton et al.

Immunological associations between diet quality and plasma fatty acids in children and adults. DA McCarron et al.

Nutritional Sciences – Research Advances in China

Immune System – Nutritional Programming

Cardiometabolic Syndrome – Impact of Dairy Components

Agency Reports: Dietary Quality of Food Away from Home

Nutrient Information: Vitamin K
Ideas for ASN's Sustaining Members?
The Sustaining Members are represented in the Society by a Sustaining Member Committee. The members of this standing committee help to provide visibility within ASN to matters of interest to industry by exchanging ideas and providing support for the society’s activities.

Interested in Adding Your Support to the Society?
Your unrestricted contribution is used to support programs and awards that help the association fulfill its mission to be the leading nutrition research society dedicated to improving the health of individuals and populations worldwide.

For more information, please visit www.nutrition.org/industry

The Highest Commitment to Nutrition

Benefits for FASEB Society Scientists
The Federation of American Societies for Experimental Biology is an organization of multiple member societies representing tens of thousands of life scientists.

Working closely with member societies, FASEB staff provide strategic intelligence on policy developments, conduct policy research, and engage government and media relations.

How FASEB Helps You
In addition to the benefits you receive from being a member in your own professional society, you also receive a variety of important benefits through your society’s membership in FASEB including:

- Access to FASEB’s Legislative Action Center
- FASEB’s Washington Update
- Subscription discounts for The FASEB Journal
- Members only online access to the FASEB Directory of Members
- CME at FASEB Summer Research Conferences and society meetings
- Career development resources
- Personal development programs
- Credit card and line of credit programs

To learn more about FASEB, visit www.faseb.org and go to “Information for Scientists” to download a brochure.

Call toll-free 800.43FASEB or email memberbenefits@faseb.org.
