ADVANTAGES AT-A-GLANCE

• **Publications**
  Representative of ASN’s strength in serving medical practitioners is the success of the association’s The American Journal of Clinical Nutrition (AJCN). AJCN, published since 1952, is currently the highest ranked peer-reviewed journal in the ISI nutrition and dietetics category. ASN’s international review journal, Advances in Nutrition, assists in understanding human growth and development and the role nutrition plays in the pathophysiology of disease and disorders. Members of ASN receive free online access to AJCN, Advances in Nutrition (AN) as well as the Society’s experimental nutrition journal, The Journal of Nutrition (JN). ASN members are also eligible to receive Nutrition Today at a 58% discount of the regular subscription rate.

• **Communities**
  An emphasis on medical applications for nutrition research runs throughout ASN’s member communities. The Medical Nutrition Council (MNC) is one of ASN’s three Scientific Councils. The MNC serves as the Society’s primary mechanism for disseminating clinical nutrition knowledge; promoting policies to prevent and treat nutrition-related diseases; training health professionals; and monitoring national dietary and disease trends. MNC members, including medical students, receive an exclusive monthly newsletter tracking clinical nutrition and research news. Many of ASN’s fifteen Research Interest Sections also feature a translational approach that reinforces the work of the MNC. Through Sections such as Aging and Chronic Disease, Obesity, Diet and Cancer and Nutritional Immunology, ASN promotes knowledge exchange and the advancement and application of nutrition science in patient settings.

Several of ASN’s committees also focus on issues relevant to physicians, such as the Nutrition Education in Professional Schools Subcommittee.
