Reviews

675 Nutrition Implications for Fetal Alcohol Spectrum Disorder
Jennifer K. Young, Heather E. Giesbrecht, Michael N. Eskin, Michel Aliani, and Miyoung Suh

693 Considerations on an Approach for Establishing a Framework for Bioactive Food Components
Kathleen Ellwood, Douglas A. Balentine, Johanna T. Dwyer, John W. Erdman Jr., P. Courtney Gaine, and Catherine L. Kwik-Uribe

702 Undernutrition, the Acute Phase Response to Infection, and Its Effects on Micronutrient Status Indicators
Kara A. Bresnahan and Sherry A. Tanumihardjo

712 Sodium-to-Potassium Ratio and Blood Pressure, Hypertension, and Related Factors
Vanessa Perez and Ellen T. Chang

742 An Integrative Review of Sleep for Nutrition Professionals
Devon L. Golem, Jennifer T. Martin-Biggers, Mallory M. Koenings, Katherine Finn Davis, and Carol Byrd-Bredbenner

Nutrient Information

760 Carbohydrates
Joanne Slavin and Justin Carlson

Reports from the Agencies

Shelley McGuire

Reviews from ASN EB 2014 Symposia

764 The Science upon Which to Base Dietary Sodium Policy
Michael H. Alderman

770 At the Dawn of a New Discovery: The Potential of Breastmilk Stem Cells
Foteini Hassiotou and Peter E. Hartmann

779 The Origin of Human Milk Bacteria: Is There a Bacterial Entero-Mammary Pathway during Late Pregnancy and Lactation?
Juan M. Rodriguez

ASN 2014 Annual Meeting Symposium Summaries

785 The Use of Metabolomics in Population-Based Research
L. Joseph Su, Oliver Fiehn, Padma Maruvada, Steven C. Moore, Stephen J. O’keefe, David S. Wishart, and Krista A. Zanetti

789 Modifying Eating Behavior: Novel Approaches for Reducing Body Weight, Preventing Weight Regain, and Reducing Chronic Disease Risk
Nana Gletsu-Miller and Megan A. McCrory
Nutrimetabolomics
Monique J. LeMieux, Arwa Aljawadi, and Naima Moustaid-Moussa

Successful Scientist: What’s the Winning Formula?
April J. Stull and Eric D. Ciappio

From the American Society for Nutrition
Research Issues: The Food Environment and Obesity
Sugar-Sweetened and Artificially-Sweetened Beverages in Relation to Obesity Risk
Mark A. Pereira

Food Availability/Convenience and Obesity
Penny Gordon-Larsen

Food Prices and Obesity: A Review
Eric A. Finkelstein, Kiersten L. Strombotne, Chen Zhen, and Leonard H. Epstein

Evidence for Efficacy and Effectiveness of Changes in Eating Frequency for Body Weight Management
Ashima K. Kant

Portion Size and Obesity
M. Barbara E. Livingstone and L. Kirsty Pourshahidi

Energy Density, Energy Intake, and Body Weight Regulation in Adults
J. Philip Karl and Susan B. Roberts

Variety, Palatability, and Obesity
Fiona Johnson and Jane Wardle

Erratum

Supplement—20th International Congress of Nutrition (ICN), Part 3
The Evidence for α-Linolenic Acid and Cardiovascular Disease Benefits: Comparisons with Eicosapentaenoic Acid and Docosahexaenoic Acid
Jennifer A. Fleming and Penny M. Kris-Etherton
