The Nutrition Science Legacy Archive (NSLA) includes content from both:
- The Journal of Nutrition (JN) - 1928-1996

The NSLA contains historic scientific research published in the high impact flagship journals from the American Society for Nutrition (ASN). The Journal of Nutrition (JN) has collaborative links full text of the first 68 years of JN issues (vol. 1, 1928 - vol. 126, 1996) and 46 years of AJCN (vol. 1952 - vol. 68, 1998). Full text PDF images of the printed pages are easily searchable and downloadable.

The one-time purchase option grants perpetual rights for customers to access the NSLA content online, without any maintenance fees.

The NSLA Pricing is priced per single site institution. Multi-site organizations and consortia that require custom pricing should contact journal@nutrition.org.

Discounts are available for subscription agents.
The Highest Commitment to Nutrition

Industry organizations with the highest level of commitment to the nutrition profession are recognized as ASN Sustaining Partners. ASN is proud to partner with these companies to advance excellence in nutrition research and practice.

SUSTAINING PARTNERS

Unilever North America

Ideas for ASN’s Sustaining Partners?
The Sustaining Partners are represented in the Society by a Sustaining Partner Roundtable. The members of this roundtable help to provide visibility within ASN to matters of interest to industry.

Interested in Adding Your Support to the Society?
Your unrestricted contribution is used to support programs and awards that help the association fulfill its mission to be the leading nutrition research society dedicated to improving the health of individuals and populations worldwide.

SEARCH ANNOUNCEMENT
Mentor Search for the ASN Science Policy Fellowship

The selection process is currently underway for the American Society for Nutrition (ASN)’s Science Policy Fellowship. ASN will once again offer two (2) one-year Fellowships to graduate students, early professionals, postdoctoral trainees, or medical interns, residents, or fellows interested in the interface of nutrition and public policy in 2017.

We seek ASN members with public policy experience who are willing to serve as a mentor to a Science Policy Fellow during the one-year Fellowship. Mentors are expected to serve in this capacity from March 2017 through February 2018. Throughout the duration of the Fellowship period, mentors will foster the mentee’s nutrition policy research and career via telephone, email, and/or online meeting communications on a regular basis; in-person meetings are encouraged if feasible. Each mentee/mentor pair will hopefully have the chance to meet in person during the ASN Scientific Sessions and Annual Meeting in April 2017.

Please contact Sarah Ohlhorst (sohlhorst@nutrition.org; 240-428-3647) if you are interested in serving as a volunteer mentor to an ASN Science Policy Fellow, or pass along the names of other ASN members who you think would be excellent mentors!

For more information, please go to www.nutrition.org/public-affairs/asn-science-policy-fellowship/
