A GROWING IMPACT WHERE IT COUNTS

Innovative content, impact, and a publication schedule that keeps pace with the ever-growing demand for the latest nutrition knowledge—Advances in Nutrition (AN) has already become a trusted resource among scholarly publications in the field of nutrition.

Launched in 2010, Advances in Nutrition responds to the growing demand for a high-quality review journal that gathers, synthesizes, and explains the current state of knowledge in all facets of the field. AN publishes literature reviews focused on key findings and recent research in all areas of interest biomedical researchers, clinicians, epidemiologists, public health and allied health professionals, and academicians. Review articles focus on progress made during the past few years rather than research developments over a broad, historical timeframe.

High impact from the first.

- In its very first year eligible (2012), AN earned an Impact Factor of 3.245 from the Journal of Citation Reports (JCR)—meaning its articles were immediately considered among the most influential in the field.

- AN’s current (2015) Impact Factor of 5.201 places it seventh among all journals in the nutrition and dietetics category and in the top 8% among all the 11,984 journals in the Journal Citation Reports.

Recognized excellence. The Association for Learned and Professional Scholarly Publishers (ALPSP), selected Advances in Nutrition as one of three finalists for Best New Journal 2013. Among other criteria, the judges considered editorial scope, placement of the new journal within the publisher's portfolio of journals, and the contribution of the journal to the scientific literature.
Current Developments in Nutrition

A FASTER PATH TO PUBLICATION

Current Developments in Nutrition maintains the same peer review process and standards as ASN’s traditional journals while offering extra value to authors and readers by providing:

- **A BROAD SCOPE** encompassing the breadth of nutrition research
- **A SIMPLE SUBMISSION** process
- **A RAPID REVIEW** process (in most cases, limited to one revision)
- Article-level metrics (using Altmetrics)
- Means for authors to collaborate, share data, and share information about their published works on SCHOLARLY COLLABORATION networks
- **ACCELERATED PUBLICATION** and dissemination: articles will be published online as soon as they are accepted and will be made immediately available to the global research community
- **PUBLISHING INNOVATION**: CDN will provide a platform for publishing innovation, to attentively serve the needs of authors and readers, and advance the scholarship of nutritional sciences

A DISTINGUISHED EDITORIAL TEAM

Launched by a group of the most prominent researchers in their fields, CDN’s masthead includes:

Editor: Jack Odle, Ph.D.,
WN Reynolds Professor of Nutrition, North Carolina State University

Deputy Editor: Connie Bales, Ph.D., R.D., L.D.N.,
Professor in Medicine, Duke University School of Medicine

Deputy Editor: Sarah Booth, Ph.D.,
Professor, Friedman School of Nutrition Science and Policy, Tufts University

Deputy Editor: Eileen Kennedy, D.Sc.,
Dean Emeritus and Professor of Nutrition, Friedman School of Nutrition Science and Policy, Tufts University

Deputy Editor: Rafael Perez-Escamilla, Ph.D.,
Professor of Epidemiology (Chronic Diseases), Yale University

ASN's NEW NUTRITION-FOCUSED ANNUAL MEETING
JUNE 9-12, 2018 | Hynes Convention Center, Boston, MA

MEETING FEATURES

- FOCUSED ON THE MULTIDISCIPLINARY FIELD OF NUTRITION SCIENCE
- BRINGING TOGETHER BASIC, TRANSLATIONAL, CLINICAL AND POPULATION SCIENTISTS AND PRACTITIONERS
- THE LATEST AND BEST QUALITY RESEARCH
- INTERACTIVE EXHIBITS AND NEW TECHNOLOGY
- IMMERSIVE LEARNING EXPERIENCE, COLLABORATION AND NETWORKING IN A WELCOMING ENVIRONMENT
- FLEXIBLE, CUSTOMIZABLE FORMAT FOR A DISTINCT AND DYNAMIC EXPERIENCE

ASN NutriLink is an online community where members of the American Society for Nutrition can connect with each other, collaborate on ideas, and engage in meaningful conversations in a safe and interactive environment. The goals are to bring the nutrition science community together, to enhance the ASN membership experience through improved communications, and to build lasting relationships among like-minded peers, which will ultimately contribute to the advancement of nutrition science.
